The U.S. Mower Way

Our Mission:

“To Be a Dependable Partner by Providing Industrial Mowing Equipment with Superior Design and Manufacturing with the Best After Sales Product Support in the Industry”

Boom Mower Features

- Ideal for over guardrails, across ditches & overhead. Ideal equipment for cutting & mulching tall, dense stands of material.
- Front-Mounted Hydraulic Pump 38 GPM with Custom Protection System.
- Excellent Ground Clearance Allows Flexibility for a Variety of Mowing Situations.
- Self-contained hydraulic system prevents cross-contamination between parent machine and the boom mowing system. This comes with an independent cooling system to better control mower hydraulic oil temperatures when the parent machine is idling; Maintains 160°F at $\sim 100^{\circ}\text{F}</math> ambient temperature.$
- Joystick Integration for Maximum Usability & Comfort for Operators.
- Numerous Configurations, Including Short & Long Reach Boom Systems with Flail & Rotary Mowers. Standard DOT Mount Heads & Fully Articulating Options Available, Custom Fit to Your Equipment.
- US Mower Custom Controller with Complete Wiring Harness Built In-House.
- Boom System Installed Close to Tractor for Storage and Travel with Rear Stow Design.
- Mowing Capabilities as Close as 3” from Right Side Tires (Overall Configuration Determines Inside Dimensions).

US MOWER
